## SUMMARY

Hello! I'm Berk Sancak, a dedicated software developer. I specialize in developing web applications using React and Next.js, and for mobile applications, I choose Flutter and have a strong command of the Bloc architecture, ensuring efficient state management and robust application logic in my projects.. You can find more details about me and explore the projects I've developed on my GitHub profile:

<https://github.com/SancakBerk>

On the backend side, I prefer MySQL as the database and leverage Node.js to develop APIs, ensuring effective data management. In my projects, I focus not only on design but also on enhancing application performance and user experience. The projects on my GitHub profile provide a deeper insight into my technical skills and development capabilities. I am committed to adapting to new technologies and providing valuable support to your projects. Feel free to check out my GitHub profile for a comprehensive overview of my work. I have developed projects that are fast, scalable, and performance-oriented.
